Do you know about Residents' Self-Government Councils?

住民自治協議会をご存知ですか

What are Residents' Self-Government Councils (Jumin-jichi-kyogikai, 住民自治協議会)?

Residents' Self-Government Councils are organizations that represent local communities. They are comprised of individuals and of various groups such as Residents' Associations, and are based on elementary school enrolment areas (or in some cases, the enrolment areas of former elementary schools).

Residents' Self-Government Councils are now established in all 48 districts of the city, and, working with the city, they make efforts to deal with local problems and realize local goals.

Neighborhood associations (wards, groups, etc.) are the most familiar organizations created from the bonds that exist in neighborhoods. They are also important organizations that make up the Residents' Self-Government Councils, and many of them are engaged in activities that are closely related to daily life.

It's important to work together as a community in cases such as the following:

If you want to find out local information:

Information about events and details about the local community are given out by Residents' Self-Government Councils and Residents' Associations, by means of notice boards and information passed from member to member.

If the road is dark and you want crime prevention lighting to be installed:

Requests for street lighting and improvement of roads are made to the City Office by Residents' Self-Government Councils and Residents' Associations.

If you want to make friends with people in the community:

Residents' Self-Government Councils are engaged in a variety of activities to promote the community. Talk to the citizens' that take part in the activities of the council, or the groups that use the community meeting halls.

There is a course held by the Civic Collaboration Center to learn about self-government councils. New officials are welcome!

This is a study group to answer small questions that new officials of the self-government councils often ask, such as 'What do the self-government councils do?'

It will be held on Wednesday April 10th, from 18:30 to 20:00, at the Citizen Collaboration Center. It is for officers of residents' self-government council and residents' associations, and those who are interested in residents' self-government councils, and it is open to the first 20 people to apply.

To apply, please use the application form. The deadline is Tuesday April 2nd.

Night-time and holiday hospitals

- ・ 夜間休日当番医

• Night-time and holiday duty hospitals: Full information about night-time and holiday duty hospitals within Higashihiroshima City is published in the Japanese-language version of the monthly city newsletter 'Higashihiroshima' (the page inside the back cover; only in Japanese), and on the Higashihiroshima City website (in Japanese and English). The information is subject to change at short notice, so before going to a medical facility, please be sure to call to confirm details.

Recently, there are more and more patients using emergency medical facilities at night and on holidays even though their situation is not serious. In some cases, these patients have prevented or delayed the treatment of patients with truly serious illnesses, and additionally, such cases are one of the reasons for doctors becoming overworked. Emergency medical facilities open at night and on holidays are for patients with serious, emergency conditions. Please try to visit the medical facility you use normally, during opening hours on weekdays.

• Emergency medical treatment for children: Please call the advice line on #8000 (if you cannot get through on this number, please call 082-505-1399). The service is available every day between 19:00 and 8:00 the following morning. You can obtain information about whether or not you should take your child to a medical facility outside of normal opening hours (at nights, on weekends or holidays, etc.).

• If you have a medical problem at night or on weekends, and you are unsure about whether or not you should go to a medical facility: Please call the Hiroshima area emergency consultation center on #7119. The service is free, and is available 24 hours a day, 365 days a year. The staff will be able to give you advice on whether to rest at home and see how symptoms develop, or whether you should go to a medical facility. If necessary, they can give you information about which facility to go to, or they can connect you directly to the 119 emergency service. In an emergency, do not hesitate to phone 119.
